

## A grade 10 parent's perspective on Bishop McNally:

Bouquet to the school.

Last year at the open house, I was somewhat overwhelmed by the crowd of people meeting in the gym. My son was then handed a map in the passport pamphlet that encouraged us to explore the school, as we got the passport stamped.

Following the map was easy.

We went everywhere.

The teachers were very patient with us.

There was clearly *respect for the potential students, their parents and other teachers.*

The technology, while intimidating me, energized my son.

Smartboards in math class? Fabulous! The school is well maintained and the staff [are] friendly and professional.

Well done, Bishop McNally School! Keep up the good work.
